

MUNICIPALITIES

By becoming a member of Info-Excavation, you agree to:

- Protecting your underground infrastructure (electrical, gas, optic fiber, water lines, telemetering, etc.) through proactive interventions.
- Knowing what work is being done in your territory and near your underground infrastructure so that you may assess what the risk of damaging your network is and how such damages could impact delivery of utilities to the population.
- Reducing costs of repair and maintenance work.
- Increasing, on its territory, the issuance and control of excavation licences and associated income.
- Being a responsible corporate citizen, eager in minimizing socio-economic costs related to damages.

TARIFICATION

An initial file opening and introduction fee is charged in the first year.
The pricing is based on the number of inhabitants.

RATE STRUCTURE 2024-2025
